FIG - 5

This exploded perspective view shows the assembly of a mechanical component. The main housing (20) features a central bore (22) and a flange (24) with mounting holes (26). A shaft (32) is shown passing through the housing. Various gears (30, 40, 42, 70) and a ring (80) are shown in their relative positions. A complex internal mechanism (50) is shown in an exploded state, revealing internal components like a lever (51), a spring (53), and a pin (54). The assembly is shown in a disassembled state to illustrate the relationship between the parts.
